Episode 2.

Fox (Alla Kuznetsova) observes how Squirrel (a banker) is juggling her tasks. Fox notices that there is no sight of Squirrel's direct reports. She asks why they are not involved. It turns out that Squirrel believes that they are too inexperienced to handle such complex tasks. Fox challenges Squirrel on her delegation skills and her overprotective nature in regards to her employees. Fox asks Squirrel a question that makes her to ponder «How can Squirrel remain a caring leader and at the same time develop her employees by giving them challenging assignments?»
